Welcome to our school!

To support you and your child in their transition to high school, we have arranged for you to access the Preparing in Primary for High School Online Guide. This comprehensive program is ideal to use at home to help your child get ready for high school and make a smooth transition to Year 7.

The guide provides resources for students as well as parents because for many of you, this will be your first child entering high school and everything is new for you too. You can even take advantage of the teacher resources in the program as well, because we believe the better prepared both you and your child are for high school, the better your child's outcomes will be socially, emotionally and academically.
